

As a web proxy service provider, SpaceProtect.net is committed to creating a safe and secure online environment for our users. We take abuse and illegal activities on our network very seriously and have strict policies in place to prevent and report any such activities.

If you come across a website that you suspect is hosting illegal material, hosting stressers, engaging in abusive or harmful behavior, or otherwise violating our terms of service, please report it to us immediately. Here are the steps you can take to report a website for abuse that is being proxied by SpaceProtect.net:

1. Gather information

Before reporting the website, gather as much information as you can about the site and the illegal or abusive activity that you suspect is taking place. This may include the URL of the website, any screenshots or other evidence of the illegal material or activity, and any other relevant details that can help us investigate the issue.

2. Submit a report

To report the website to us, please submit a report through our contact form or email us at Poye@spaceprotect.net. Please provide as much information as possible about the website and the abuse or illegal activity that you suspect is taking place.

3. Investigation

Once we receive your report, we will investigate the website and take appropriate action if necessary. If we find that the website is engaging in illegal activities or violating our terms of service, we may block the website or take other measures to prevent it from accessing our network.

4. Reporting to law enforcement

If the website is engaging in illegal activities, we may also report it to the relevant law enforcement authorities. We take our responsibility to prevent illegal activities on our network seriously and will cooperate fully with law enforcement agencies to help bring perpetrators to justice.

At SpaceProtect.net, we are committed to providing a safe and secure online environment for our users. If you come across any abusive or illegal activities on our network, please report it to us immediately so that we can take action and prevent such activities from continuing.
